1. PREFACE

This document is written to guide the installation process of The I-95 Corridor Coalition Virtual Incident Management (I95VIM) application. For information on how to use the application after a successful installation, please refer to *I95CCVIM_User_Guide* document.

2. ABOUT

Funded and envisioned by the I-95 Corridor Coalition, the Virtual Incident Management Training application was developed by the University of Maryland's CATT Lab to be used as a safe, accessible, and low cost alternative to first responders' incident management and safety training. The application is powered by OLIVE (Online Interactive Virtual Environment), a virtual world software platform initially designed for military training simulation purposes. OLIVE was developed by Forterra System Inc.

The I-95 Virtual Incident Management Training features:

- Interchangeable Roles
- Face-to-face and Radio communication
- Emergency vehicles and equipment models
- Traffic AI that reacts to cone placement and donned safety vests
- Various props and geographic locations that enable infinite custom incident scene possibilities

It is actively being used for cross-discipline, cross-agency, first responder training by members of the I-95 Corridor Coalition and beyond.

3. MINIMUM SYSTEM REQUIREMENTS

Check the following tables to see if your PC meets the minimum hardware and software requirements to run OLIVE.

| | |
|------------------|---|
| Operating System | Windows XP Professional or Windows Vista |
| CPU | Desktop: 3.0 GHz Intel Pentium 4, Pentium D 930, or Core 2 Duo E6400 or greater; AMD Athlon X2 3800 or greater Laptop: 2.0 GHz Pentium M and Core Duo T2500 or greater |
| RAM | 2.0 GB of Dual DDR main memory, at 400 MHz or greater |
| Graphics | 128 MB VRAM or more is required. Desktop: NVIDIA GeForce 6800 GT or better is preferred; Laptop: NVIDIA GeForce Go 6800 or better is preferred; ATI FireGL cards are not supported; |
| Disk Space | 1205 MB |
| Screen | 1024x768 or greater |
| Audio | <ul style="list-style-type: none"> An integrated audio system or an add-in audio card, with both microphone and headphone inputs (SoundBlaster Audigy series is recommended). A stereo headset with a medium to high quality microphone (Plantronics models are recommended). |

Many modern laptops have an automatic power saving mode when running on battery that will impact the performance of OLIVE applications. If you are running the OLIVE Client on a laptop, having the power supply plugged in is recommended.

4. INSTALLATION

The following files are required for installation. Please ensure that you have all of them readily available.

- **BaseContent_v2.2.exe**
- **2009_08_24_r22_2.2.2_OLIVE.release.exe**
- **CATT_Pack_v11.2.15.exe**

Installation needs to be completed in order to ensure proper setup. You will need to run each file as an Administrator.

Step 1: BASE CONTENT

Run the **BaseContent_v2.2.exe** file using the *Run as administrator* command.

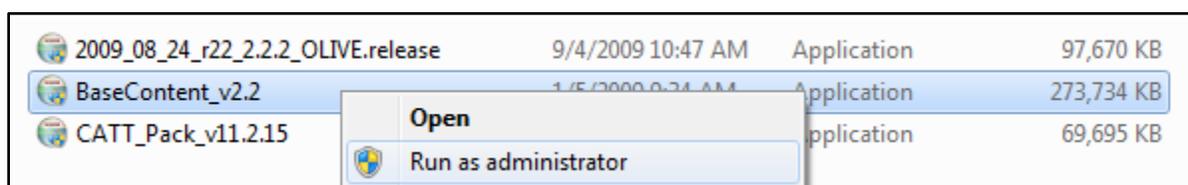

FIGURE 1 - INSTALL BASE CONTENT AS ADMINISTRATOR

The install location will be filled with a default destination folder. It is highly recommended that you keep the default value.

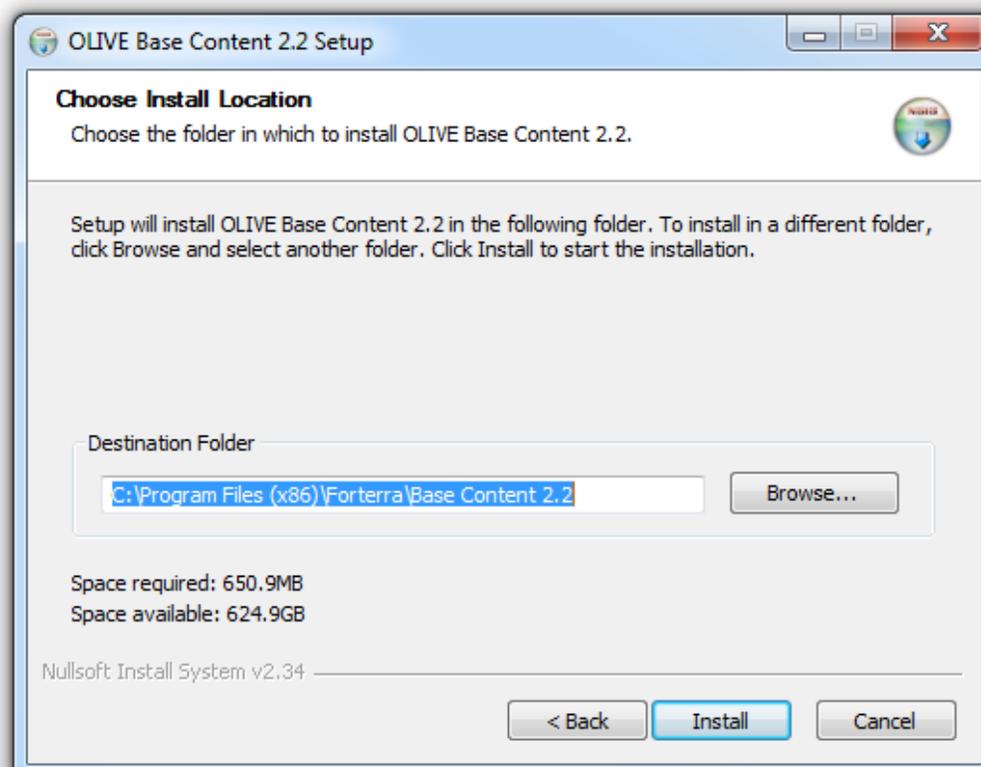

FIGURE 2 - DEFAULT BASE CONTENT LOCATION

Proceed to Step 2 after the Base Content installation has finished successfully.

STEP 2: OLIVE

Run **2009_08_24_r22_2.2.2_OLIVE.release.exe** file using the *Run as administrator* command.

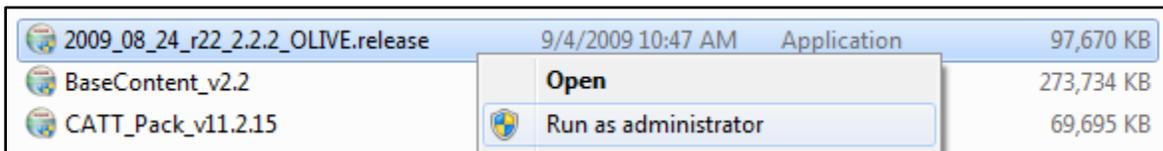

FIGURE 3 - INSTALL OLIVE AS ADMINISTRATOR

When prompted, select **All Users** for the installation type.

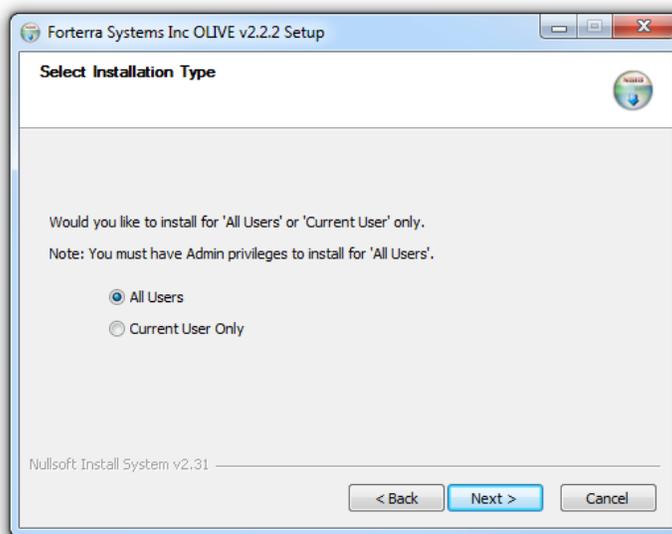

FIGURE 4 - ALL USERS

The install location will be filled with a default destination folder. It is highly recommended that you keep the default value.

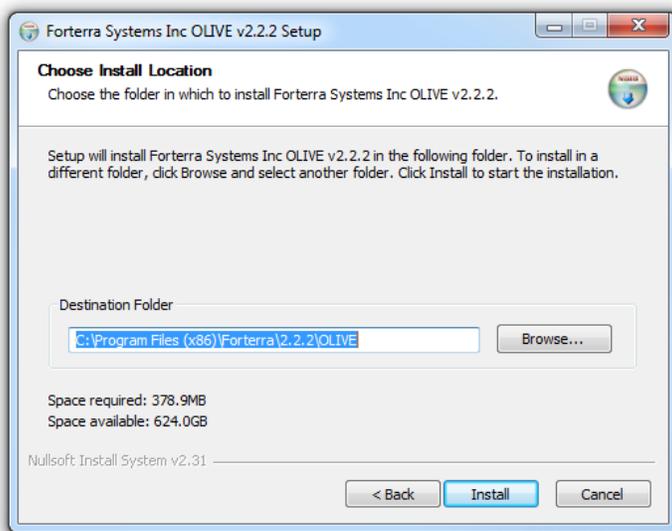

FIGURE 5 - DEFAULT OLIVE LOCATION

Proceed to Step 3 after the OLIVE installation has finished successfully.

STEP 3: CATT PACK

Run the **CATT_Pack_v11.2.15.exe** file using the *Run as administrator* command.

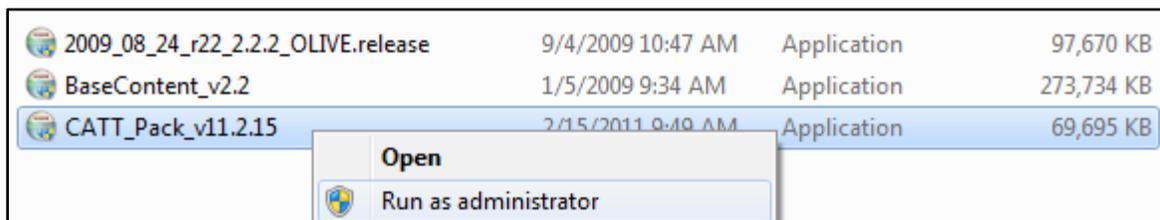

FIGURE 6 - INSTALL CATT PACK AS ADMINISTRATOR

The install location will be filled with a default destination folder. It is highly recommended that you keep the default value.

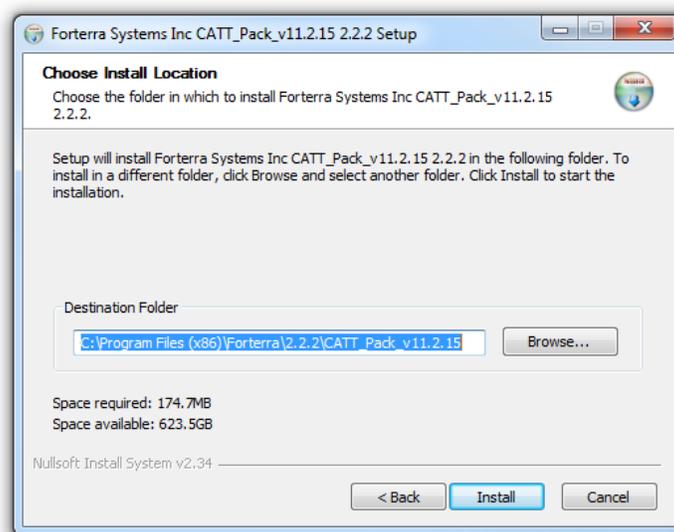

FIGURE 7 - DEFAULT CATT PACK LOCATION

When prompted, ensure that **OLIVE 2.2.2** is included in the **To Configure** list (right column).
