STUDENT JOB FAIR

April 9, 2018 - 10AM-3PM
Rotunda of the Jeong H. Kim Engineering Building
8228 Paint Branch Drive, College Park, MD 20742

PAID STUDENT INTERNSHIPS

Software Developers — Software developer interns to join our development teams. Must be skilled at developing and debugging Python, Java, and/or Javascript. Big plus if you know Hadoop, SQL, Linux, Django, React, and/or MapReduce. (If you’re not a CS or Computer Engineering major, please provide an interesting code sample.)

UI Design Intern — Work with our Design Lead creating web application designs. Must be skilled in Illustrator and Photoshop, with experience in UX and UI design of applications and websites. Big plus if you know HTML5 and CSS, or have experience with mobile app design or programming.

Software Quality Assurance — Join our team dedicated to improving our products. Must have experience in several of these areas: functional requirements, derived requirements, API testing, Selenium automated testing, and manual testing. Big plus if you have experience developing use cases or using Jira or Confluence.

GIS — GIS intern to join our data science team analyzing and manipulating geospatial data. Must be skilled at ArcGIS. Big plus if you are familiar with relational databases, Traffic Message Channel (TMC), or other transportation technologies.

Student interns are expected to commit one year to their internship with CATT Lab, working 10-20 hours weekly during semesters and working full-time in the summer.

To schedule a timeslot, please send your resume and cover letter to cattlab-jobs@umd.edu by April 4.

WHAT OUR PREVIOUS INTERNS HAVE TO SAY ABOUT WORKING AT THE CATT LAB:

“A great place to gain real experience” - Bodhi, who graduated from the CATT Lab to full-time work at Apple
“I am extremely grateful for all the experience I’ve gained working at the CATT Lab.” - Ella, Fireside21
“A great opportunity...I thought I’d do one thing, but I learned so much” - Paul, IBM
“I learned a lot of valuable lessons on software development at the Lab.” - Luke, Capital One
“It’s the best place on campus to work...I really believe that the CATT Lab is a strong software company. You can work on the latest technology, which is extremely important.” - Suresh, Verisign

For more information about the CATT Lab, visit cattlab.umd.edu or email cattlab-jobs@umd.edu with any questions.
